

Profit while promoting good health!

JuiceMatic JM-20 Automatic Feed Commercial Juicer

**See it, Smell it, Taste it,
Sell it!**

The JM-20 will pull your customers in while they watch the oranges, lemons, and limes, being pressed, and providing them with the freshest squeezed juice available.

Its automatic hopper feeds 20 pieces of citrus into the machine per minute with its rotating disc. There is no need to hand feed the JM-20 as its hopper holds an entire 40 lb case of oranges.

Invest in Quality

The JM-20 AF is assembled in sunny Jupiter, Florida with US electric wiring specifications, an American Dayton 1/2 horsepower motor, and steel gears.

The machine carries a 1 year warranty, with a 2 year warranty on the American made motor.

Placement Options

When purchased with the stainless steel cart the JM-20 AF can be placed on the retail floor, or in a back room for operation.

Once customers smell the aroma of fresh citrus and see the fruit being freshly squeezed through the machine, their mouth will water.

It can also be used on a counter top or with a through the counter option (shown right) to entice your customers for an impulse buy. It will enhance your fresh image, as well as your profits!

Optional Accessories

- Stainless Steel Cart
- Through the Counter Configuration
- Jetspray Cooler and Agitator
- Reservoir

A Company You Can Trust

Since 1982 we have been specializing in juicers and corers with the highest quality equipment available in the industry today and have juicers that will process anything from apples to wheatgrass. We take pride in our customer service and support and welcome the opportunity to work with you on your juicing needs.
