

#### Engineered for Ease

Quick Reference Guide

## I need ice.

# That's why I choose Manitowoc<sup>®</sup>.

Manitowoc has built its reputation on developing the most innovative and reliable ice solutions for the foodservice industry. Solutions you'll find no where else. And, with the largest ENERGY STAR® portfolio in the industry,\* our ice machines are not only dependable, they are energy efficient. No one knows ice better than Manitowoc. That's why we are America's number one selling ice machine.

Our flagship ice machines, the Indigo® NXT and NEO® are no exceptions. Both Indigo NXT and NEO use modern advancements in technology to simplify everything we've ever known about making ice. Now your ice machine can tell you what it is doing and ensure that you have ice when and where you need it.

\*Based on ENERGY STAR qualifying models list February 12, 2020

Features like Indigo NXT and NEO's tool-free foodzone, patented EasyClean, programmability or time delay features, and service messages or indicators help ensure that your ice machine consistently meets your demand for ice. Manitowoo

offers one of the largest portfolios of ice machines in the foodservice industry. Gourmet, dice, half dice, flake, nugget, and crushed – from 53 lbs (24 kg) of ice to 3,200 lbs (1,451 kg) – whatever your ice needs are; we have the solution.

Indigo NXT, was awarded the 2019 Kitchen Innovations Award and the Crystal Craft Premier was awarded the 2021 Kitchen Innovations Award from the Natioanal Restaurant Association. This prestigious award recognizes both products for its innovations, efficiencies and productivity.

#### **HALF DICE**

Hard, clear ice cube with unique "rhomboid" shape 3/8" x 1-1/8" x 7/8" (0.95 x 2.86 x 2.22 cm) in dimension, 96 cubes per pound of ice, maximum cooling with nearly 100% ice to water ratio.

#### DICE

Hard, clear ice cube with unique "rhomboid" shape 7/8" x 7/8" x 7/8" (2.22 x 2.22 cm) in dimension, 48 cubes per pound of ice, maximum cooling with nearly 100% ice to water ratio.

#### **NUGGET**

Perfect for chewing and blended beverages while dry enough (85% ice to water ratio) to be dispensed. 3/8" to 1/2" (0.95 to 1.27cm) in width and length on average.

Small, soft pieces of ice with a 73% ice to water ratio. Ideal for food, presentation, and preservation as well as hand scooping into drinks.

#### **REGULAR**

Hard, clear ice cube with unique "rhomboid" shape 1-1/8" x 1-1/8" x 7/8" (2.86 x 2.86 x 2.22 cm) in dimension, 32 cubes per pound of ice, maximum cooling with nearly 100% ice to water ratio.

#### **GOURMET**

Hard, clear individual cube with unique octagon shape 1-3/8" x 1-3/8" (3.49 x 3.49 cm), maximum cooling with nearly 100% ice to water ratio.

#### **SQUARE**

Crystal clear and slow melting 1"x1" square cube that is individually formed and perfect for handcrafted premium cocktails.

## **LARGE SQUARE**

Large, individual 1.5" x 1.5" cubes melt slowly maintaining the flavor integrity for premium beverages.

# INDIGO® NXT The next generation ice machine

#### NEXT LEVEL OF SIMPLICITY

Indigo NXT takes the guess work out of owning and operating an ice machine

- · User friendly full color icon based easyTouch display
- Convenient Start up wizard to simplify installation process
- · Visual 24/7 ice machine status
- · Easy step by step cleaning instructions
- · Effortless one touch access to all machine info
- · Multi-language display
- · One touch service menu
- · No worry screen lock
- · Automatic detection of accessories
- · Simplified ice programing
- · Self exploratory reminder notifications
- · Three handy water settings

#### **NEXT LEVEL OF SANITATION**

Indigo NXT are the industries easiest ice machines to clean and keep clean

- · Front facing evaporator on most models
- Cleaning can be done without removing the top or sides of the machine
- · All white interior including water trough
- Alpha San antimicrobial additive in the foodzone to reduce bacteria growth
- · Rounded food zone corners with no exposed tubes or wires
- Tool-less part removal of all internal components including the water pump
- · One button cleaning function automatically returns to making ice
- Industry's only fully integrated optional LuminIce II Virus and Bacteria Inhibitor

#### **NEXT LEVEL OF ENERGY EFFICIENCY**

Indigo NXT are some of the most energy efficient in the market

- Many use highly efficient and environmental refrigerant which have 48% less the global warming potential than industry standard models
- · All models are AHRI certified for performance and energy efficiency
- Exceeds stringent DOE 2018 energy standards
- · Convenient ice programming to save electricity
- Up to 43% more efficient than our previous standard
- · Industry leader in Energy Star 3.0 qualified models

#### **NEXT LEVEL OF RELIABILITY**

Indigo NXT are the most reliable ice machines Manitowoc has ever produced

- · More than a half a million hours of testing and validation.
- State of the art reliability methodology and HALT (Highly Accelerated Life Testing)
- Constant product improvement through 57 years of ice making experience

## 22" Wide Cubers

The Indigo NXT series ice machine offers some of the industries lowest profile ice makers for venues where real estate is scarce. These slender 22" (56 cm) wide models produce up to 575 lbs (262) kg, and can be installed on a variety of bins, hotel dispensers, and counter top beverage dispensing systems—ensuring that you have ice no matter the space constraints.

Available on iT0620

IT0420 D-320 Bin

IT0620 D-420 Bin

<sup>\*</sup>Half dice pounds produced per day. Approximate ice-making capacity based on air-cooled condenser unit at 70°F/21°C air and 50°F/10°C water. Ice machine and bin ordered separately.

#### 30" Wide Cubers

By far the most popular size ice machine in the industry— The Indigo NXT 30" (76cm) platform offers the widest array of daily production, cube types, and condensing options available on the market today. With production capacities ranging from 310 lbs (141 kg) to 1,660 lbs (753 kg), three available cube types, and condensing options that include air, water, traditional air remote, and Manitowoc's patented QuietQube® CVD® remote technology (see pages 14-17), this series has an ice machine for just about every situation whether in a full-service restaurant, a fast-food chain, a convenience or grocery store, or in the world's finest hotel. Manitowoc ensures that you have ice when and where you need it.

<sup>&</sup>quot;Half dice pounds produced per day. Approximate ice-making capacity based on air-cooled condenser unit at 70°F/21°C air and 50°F/10°C water. Ice machine and bin ordered separately. Ice storage application capacity is measured at 90% of the total volume in cu. ft x 33lbs/ft3.

## **Large Capacity Cubers**

When you need a lot of ice and space isn't as big a concern Manitowoc also has a range of large capacity cubers that offer daily production rates from 1660 lbs (752 kg) to 2910lbs (1,320kg). These machines are popular in fast-food outlets, full-service restaurants, institutional kitchens, cafeterias, and other large venues like stadiums and casinos. When you need ice, and you need a lot of it Manitowoc has your solution.

\*Half dice pounds produced per day. Approximate ice-making capacity based on air-cooled condenser unit at 70°F/21°C air and 50°F/10°C water. Ice machine and bin ordered separately.

## **Ice/Beverage Series**

The Indigo NXT IB series is home of one of the highest producing 22" (56 cm) ice machine in the industry. The IB series' narrow 14" depth provides operators with easy access to the beverage dispenser for manual fill, cleaning, sanitizing, and other maintenance. This unique capability is made possible by Manitowoc's patented CVD\* technology which results in an compact design allowing the ice machine to run with virtually no noise or heat exhaust. With the proper adapter Manitowoc's IB machine can be installed on almost any beverage dispenser. Just another way that Manitowoc is making sure you have ice.

## QuietQube

75% quieter than a self-contained or standard remote ice machine. Our patented CVD° technology uses cool vapor rather than hot gas to harvest ice. It not only makes QuietQube ice machines the quietest ever; it makes them more reliable, makes them more efficient, and provides high levels of ice production too. Consider how much noise customers and employees face in your operation and how much more inviting it will be with a quiet ice machine.

## **Ice Dispensers**

These automatic-fill, floor-standing ice dispensers meet the strict sanitary needs of the lodging, foodservice, and healthcare industries. Capable of providing 635 lbs. (289 kg) of dispensed ice in a 24 hour period, the SPA dispensers feature a patented push for ice or touchless lever activated ice dispense mechanism and paddle wheel ice delivery. The SFA models add a built-in water valve for filling buckets, cups or refillable bottles. Attractively styled to complement any decor.

#### **Performance**

- Manitowoc reliability
- · Industry leading 24 hour ice production

#### **Intelligence**

- Universally recognizable, easy-to-read display icons with bright, neon blue indicator lights
- · Time delayed ice production

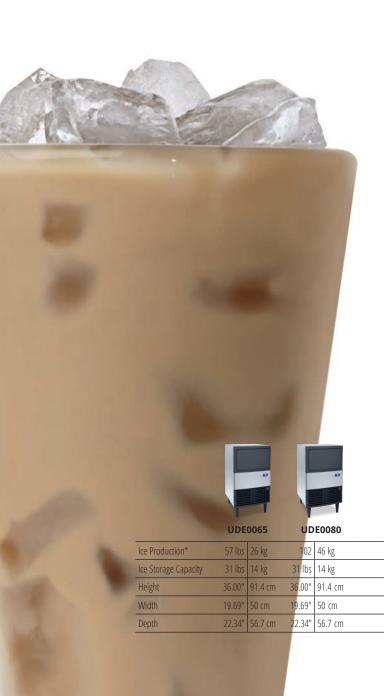

#### **Convenience**

- · Removable bin, for front service access
- EZ glide, angled bin door
- LuminIce II accessory compatible
- · Improved scoop & holder inside the bin

For more information visit www.manitowocice.com/NEO

#### **Undercounter Cubers**

These compact ice cube machines are ideal for small-volume ice production, for limited use needs, or as back-ups for larger machines. Specifically designed to fit beneath counters or in areas where floor space or height restrictions prohibit use of larger equipment. The petite size makes any of these models ideal for on-the-spot installations at coffee shops, stadium boxes, refreshment/break areas, or wherever limited ice needs require equipment with a small footprint.

## **Nugget Ice Machines**

Manitowoc nugget machines provide a high quality, chewable ice that boasts a 85% ice content—one of the industry's highest ice/water ratios. This means minimal drink dilution, and a nugget ice that is perfect for use with drink dispensing applications. Manitowoc nugget is also ideal for specialty blended beverages, as well as filling many uses in healthcare from ice/water needs to cold therapy.

#### **Undercounter Flakers**

When it comes to food preservation, a cool presentation can lead to cold, hard profits. Not only does your product need to look good and stay fresh, the ice needs to look good too. Manitowoc flake ice machines offer quick cooling, moldable flakes. Small, soft pieces of ice with a 73% ice to water ratio form around objects without bruising and hold in place without tipping or spilling. Perfect for food and beverage presentation and hand scooping into drinks.

#### **Gourmet Cube**

Hard, clear individual cube for maximum cooling with nearly 100% ice to water ratio. Perfect Premium Beverage Companion with its crystal-like appearance. The SM-50 is a compact, small capacity ice machine designed for use in undercounter settings next to traditional cabinetry. It is the ideal ice machine for the boardroom, conference rooms, or kitchen lunch areas. The unit is designed to be installed into a standard 15" 38 cm cabinet opening or can be freestanding. Features include a multi-function control panel with unique "delay-start mode," lighted and over-sized bin opening, and a built-in innovative water filtration system. Produces individual octagon shaped cubes.

## CrystalCraft

Looking to increase profits with a premium cocktail lineup? Manitowoc's CrystalCraft offers clear, individual 1x1" cubes that melt slowly, enhancing the flavor and enjoyment of the most prestigious cocktails. The machine uses R-290 refrigerant, a refrigerant that is naturally occurring and has very little effect on the environment. The USP0100 was designed for reliability, with fewer moving parts, easy one-touch cleaning, and is backed by Manitowoc's 3-year parts and labor warranty. With high production and storage, this sleek undercounter is the perfect solution for the

# **Options & Accessories**

#### **LuminIce II Virus and Bacteria Inhibitor**

Creates "active air" by recirculating the air around the ice machine foodzone components to inhibit the growth of viruses, yeast, bacteria, mold and other common micro-organisms. For use with Indigo NXT and

NEO series.

Ice machine equipped with LuminIce II

Ice machine without LuminIce II

LuminIce II runs quietly 24/7 keeping your ice machine cleaner while helping reduce cleaning frequency; which ultimately can save money spent on routine maintenance and PM programs. Space-saving design fits inside the ice machine. With the Indigo NXT, the easyTouch\* display sanitation icon will show the unit is working and indicate when it is time to change the bulb.

# Arctic Pure Plus Premium Water Filters with QUICK DISCONNECT DESIGN

Ultra fine filtration (0.5 microns) with silver impregnated carbon block and slowly soluble polyphosphates provides triple protection from harmful contaminates that can affect your ice and machine's performance. Certified to NSF standards 42 and 53. The Pre-filter system is recommended for all applications to achieve maximum filtration efficiency and cartridge life.

### **Vertical Discharge Remote Condensers**

Remote air-cooled condenser systems improve efficiency, increase ice production, and conserve energy. Remote systems for Series 500, 600, 900, 1200, 1500 and 1900 ice machines consist of ice maker, bin, remote condenser, and interconnecting refrigerant lines. Order with "Q" suffix for coated coils which adds added protection in salt spray areas. (Each ordered separately.)

# **Options & Accessories**

### Optional, Automatic Cleaning System (iAuCS)

Eliminates routine maintenance. iAuCS counts the number of ice-making cycles and, at a frequency you select, initiates a cleaning or sanitizing cycle... AUTOMATICALLY. Choose from 2-, 4-, or 12-week settings. Use with Indigo NXT modulars.

iAuCS (External Mounting)

New NSF approved holder

D-Bin Scoop Metal Scoop

### Multi Mount External Scoop Holder

This NSF approved commercial grade scoop holder is assembled without tools. The K00461 holder can be mounted 7 different ways: bin mount left or right side, horizontal or vertical and wall mount: horizontal or vertical. Works with Manitowoc D-Bin scoop or optional new metal scoop

# **Additional Offerings**

**Gourmet Spray**\*

Gourmet spray cubes are offered in a variety of cube sizes and production capacities. Perfect for cafés, bars and restaurants in countries where demand for ice in beverages is reduced.

### Scale Ice\*

Scale ice is extremely hard and cold with sizes ranging from 1.5 mm to 3 mm in thickness. Ice pieces resemble a shattered sheet of ice. Scale is perfect for industrial applications, food processing and display such as fish, dairy products, meat cutting, and baking companies.

# You've purchased the best ice machine available – keep it that way with Welbilt KitchenCare®

Every new piece of equipment comes with Welbilt KitchenCare and you choose the level of service that meets your operational needs from one restaurant to multiple units.

**Welbilt KitchenCare service offerings** can customize a program to meet your specific needs. This includes working with your operational team to determine the pieces of equipment to be covered, installed, started up, maintenance frequency based on factory specifications, as well as your operational usage and billing schedules.

- Installations
- Start-up Services
- Service Level Agreements
- Extended Warranty Plans
- Planned Maintenance Programs
- Consumable Replenishment Programs

### **Sustainability**

At Manitowoc we strive to be a responsible manufacturer, industry leader, and employer, not only for this generation, but for future generations. We routinely engage

our customers, industry partners, employees, strategic suppliers, domestic and international government agencies and associations, and the communities that we serve around the world

The EnerLogic® program helps operators conserve energy and maximize profits. Look for our EnerLogic mark and you'll know you're getting the most from every energy dollar spent on Welbilt equipment.

This program incorporates a combination of third-party standards, including meeting or exceeding California Energy Commission rebate standards, or meeting criteria outlined by the Federal Energy Management Program, including those that:

- · Incorporate new energy-saving technology
- Involve renewable energy
- · Demonstrate water efficiency and/or
- · Feature sustainable design and operations

### Less Energy. Less Water.

Manitowoc machines earn the ENERGY STAR

Commercial ice machines that have earned the ENERGY STAR are on average 15% more

energy efficient and 10% more water efficient than standard models. Manitowoc leads the way with dozens of qualifying ice machines that meet and exceed ENERGY STAR guidelines.

Visit www.welbiltgreen.com for a complete list of Welbilt's ENERGY STAR-qualified ice machines.

# **Ice Usage Guide**

## **Quality Assurance**

Before crating and shipment, every Manitowoc cube machine is operated for a minimum of two ice-making cycles. During this testing, inspectors record the serial number, air and water temperatures, humidity, freeze times, and harvest times as part of their final inspection. Ongoing reviews of this test data assure that Manitowoc machines consistently meet the highest standards of quality.

# ISO 9001:2015 **Quality System Certified**

Quality is the #1 consideration at Manitowoc. Our companywide commitment to quality makes us especially proud of our certification to ISO 9001:2015 quality standards and our position as North America's first . ISO-certified manufacturer of ice machines.
