

ENGINEERING CONNECTION

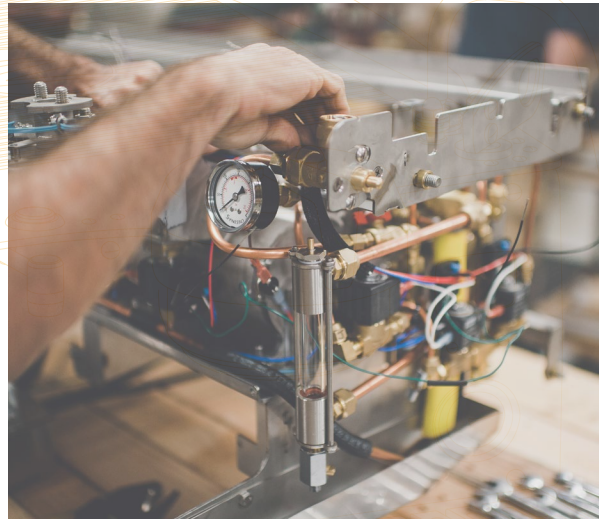

**Serious about
your coffee?**

Say it with Synesso.

ENGINEERING CONNECTION THROUGH COFFEE

Synesso blends our roots in quality engineering and design with the art and science of our customer's coffee visions to hand-build some of the highest quality, reliable, and precise espresso machines available for the very best Specialty Coffee shops. Together with our owner-partners, we believe deeply in enabling what coffee does best for people around the world: it connects.

ENGINEERING

- innovation that pushes the product.
- design standards that assure quality.
- research efforts to advance the industry.
- collaboration with customers to create the best.

ENGINEERING CONNECTION

CONNECTION

- to coffee and its story.
- to baristas and their craft.
- to the coffee community.
- to your local café experience.
