

Classic Pro Bubblers 9L and 18L Assembly of Impeller Cover

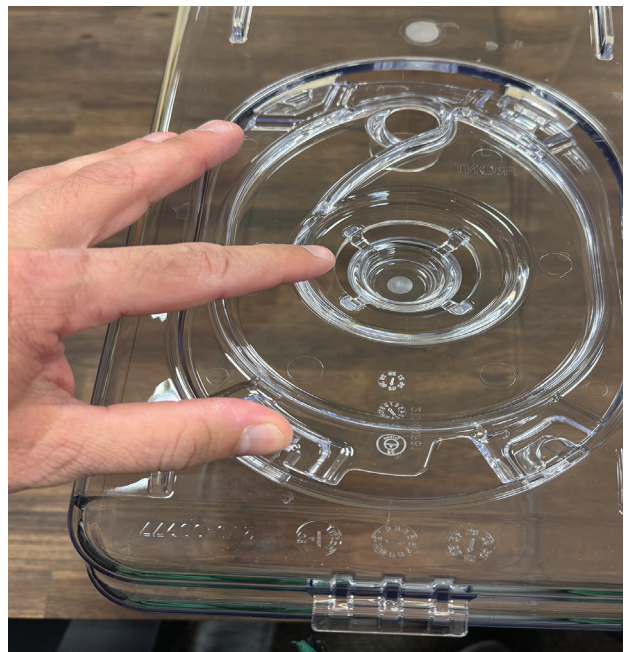

CRATHCO

All Classic Pros Bubblers come standard with an agitator, the spray arm is an optional accessory. The kits include the lid, impeller cover and spray tube. The spray arm is designed to bend slightly so it aligns with the center of lid. Lid is double insulated to eliminate condensation. Spray lid has different height than standard Classic Pro lid.

Installation

1. Turn bowl upside down on a flat surface.
2. Line up “cut outs” on impeller cover to match “cut outs” on bowl
3. Push down impeller cover and snap into place
4. Make sure impeller cover is securely attached

Classic Pro Bubblers 9L and 18L Assembly of Impeller Cover

CONTINUED -

5. Flip bowl upright

6. Install spray tube with bent section pointed towards front of bowl

NOTE: Tube has the bend in top 1/3 of tube

7. Install gasket and impeller

8. Install bowl on base hinge

9. Install valve and handle

10. Install bowl cover
